

Normung im Bereich Geotechnik - Organisation

CEN/TC 250 Structural Eurocodes

CEN/TC 250/SC 7 Eurocode 7 - Geotechnical design

EN 1997-1

EN 1997-2

CEN/TC 288 Execution of special geotechnical works

Working Groups

WG 4: Sheet piling

WG 5: Displacement piles

WG 6: Grouting

WG 7: Jet grouting

WG 8: Micropiles

WG 9/TG1: Soil nailing

WG 9/TG1: Reinforced fills

WG 10: Deep soil mixing

WG 11: Vertical drains

WG 12: Deep vibration

CEN/TC 341 Geotechnical Investigation and Testing

Working Groups

WG 1: Drilling and sampling
methods and groundwater
measurements

WG 2: Cone and piezocene
penetration tests

WG 3: Dynamic probing and
Standard Penetration Test

WG 4: Testing of geotechnical
structures

WG 5: Borehole expansion
tests

ISO/TC 182 Geotechnics

Subcommittees

SC 1: Geotechnical
investigation and testing
SC 3: Foundations, retaining
structures and earthworks

ON-Komitee 023 "Geotechnik"

AG 023 01: Benennung, Beschreibung und Klassifizierung

AG 023 02: Erkundung und Probenentnahmen

AG 023 03: Labor- und Feldversuche

AG 023 04: Berechnungsverfahren

AG 023 05: Besondere Bauverfahren

AG 023 06: Geotextilien

AG 023.07: Technischer Lawinenschutz
